Mathematics Paper 1 and Paper 2 format based on SEAB 2026 PSLE Mathematics 0008. Questions are original practice questions, not official PSLE past-paper questions.

Area, perimeter and symmetry

P4 · Measurement and Geometry

1. A rectangle has length 23 cm and breadth 12 cm. Find its area and perimeter. [1]

A. Area 276 cm², perimeter 70 cm

B. Area 276 cm², perimeter 70 cm⁰

C. Area 276 cm², perimeter 70 cm²

D. Area 276 cm², perimeter 70 cm⁵

2. A rectangle has length 9 cm and breadth 4 cm. Find its area and perimeter. [2]

3. A rectangle has length 23 cm and breadth 14 cm. Find its area and perimeter. [4]

4. A rectangle has length 8 cm and breadth 14 cm. Find its area and perimeter. [1]

A. Area 112 cm², perimeter 44 cm

B. Area 112 cm², perimeter 44 cm⁰

C. Area 112 cm², perimeter 44 cm²

D. Area 112 cm², perimeter 44 cm⁵

5. A rectangle has length 23 cm and breadth 14 cm. Find its area and perimeter. [2]

6. A rectangle has length 20 cm and breadth 12 cm. Find its area and perimeter. [4]

7. A rectangle has length 22 cm and breadth 9 cm. Find its area and perimeter. [1]

- A. Area 198 cm², perimeter 62 cm
B. Area 198 cm², perimeter 62 cm
C. Area 198 cm², perimeter 62 cm²
D. Area 198 cm², perimeter 62 cm⁵

8. A rectangle has length 20 cm and breadth 12 cm. Find its area and perimeter. [2]

Answer Key

Q	Section	Answer	Guidance
1	Area, perimeter and symmetry	A	Area 276 cm ² , perimeter 70 cm. Area = length x breadth. Perimeter = 2 x (23 + 12).
2	Area, perimeter and symmetry	Area 36 cm ² , perimeter 26 cm	Area = length x breadth. Perimeter = 2 x (9 + 4).
3	Area, perimeter and symmetry	Area 322 cm ² , perimeter 74 cm	Area = length x breadth. Perimeter = 2 x (23 + 14).
4	Area, perimeter and symmetry	A	Area 112 cm ² , perimeter 44 cm. Area = length x breadth. Perimeter = 2 x (8 + 14).
5	Area, perimeter and symmetry	Area 322 cm ² , perimeter 74 cm	Area = length x breadth. Perimeter = 2 x (23 + 14).
6	Area, perimeter and symmetry	Area 240 cm ² , perimeter 64 cm	Area = length x breadth. Perimeter = 2 x (20 + 12).
7	Area, perimeter and symmetry	A	Area 198 cm ² , perimeter 62 cm. Area = length x breadth. Perimeter = 2 x (22 + 9).
8	Area, perimeter and symmetry	Area 240 cm ² , perimeter 64 cm	Area = length x breadth. Perimeter = 2 x (20 + 12).
