Total marks: 17

Mathematics Paper 1 and Paper 2 format based on SEAB 2026 PSLE Mathematics 0008. Questions are original practice questions, not official PSLE past-paper questions.

Speed

P6 · Measurement

1. A bus travels at an average speed of 67 km/h for 5 h. How far does it travel? [1]

A. 335 km

B. 336

C. 334

D. 340

2. A bus travels at an average speed of 76 km/h for 3 h. How far does it travel? [2]

3. A bus travels at an average speed of 87 km/h for 4 h. How far does it travel? [4]

4. A bus travels at an average speed of 60 km/h for 5 h. How far does it travel? [1]

A. 300 km

B. 301

C. 299

D. 304

5. A bus travels at an average speed of 87 km/h for 4 h. How far does it travel? [2]

[4]

[1]

[2]

Q	Section	Answer	Guidance
1	Speed	A	335 km. Distance = speed x time = 67 x 5.
2	Speed	228 km	Distance = speed x time = 76 x 3.
3	Speed	348 km	Distance = speed x time = 87 x 4.
4	Speed	A	300 km. Distance = speed x time = 60 x 5.
5	Speed	348 km	Distance = speed x time = 87 x 4.
6	Speed	380 km	Distance = speed x time = 76 x 5.
7	Speed	A	138 km. Distance = speed x time = 69 x 2.
8	Speed	380 km	Distance = speed x time = 76 x 5.
