

Science Topical Worksheet

1 selected topic(s)

Total marks: 20

Science Booklet A and Booklet B format based on SEAB 2026 PSLE Science 0009. Questions are original practice questions, not official PSLE past-paper questions.

Water and changes of state

P5 · Cycles

1. Why does a wet shirt dry faster on a windy day?

[2]

A. Moving air removes water vapour faster

B. Gravity

C. Evaporation

D. A complete circuit

2. Why does a wet shirt dry faster on a windy day? Explain your answer clearly.

[2]

3. Why does a wet shirt dry faster on a windy day? Explain your answer clearly.

[4]

4. Why does a wet shirt dry faster on a windy day?

[2]

A. Moving air removes water vapour faster

B. Gravity

C. Evaporation

D. A complete circuit

5. Why does a wet shirt dry faster on a windy day? Explain your answer clearly.

[2]

6. Why does a wet shirt dry faster on a windy day? Explain your answer clearly. [4]

7. Why does a wet shirt dry faster on a windy day? [2]

- A. Moving air removes water vapour faster B. Gravity
C. Evaporation D. A complete circuit

8. Why does a wet shirt dry faster on a windy day? Explain your answer clearly. [2]

Answer Key

Q	Section	Answer	Guidance
1	Water and changes of state	A	This increases the rate of evaporation.
2	Water and changes of state	Moving air removes water vapour faster	This increases the rate of evaporation.
3	Water and changes of state	Moving air removes water vapour faster	This increases the rate of evaporation.
4	Water and changes of state	A	This increases the rate of evaporation.
5	Water and changes of state	Moving air removes water vapour faster	This increases the rate of evaporation.
6	Water and changes of state	Moving air removes water vapour faster	This increases the rate of evaporation.
7	Water and changes of state	A	This increases the rate of evaporation.
8	Water and changes of state	Moving air removes water vapour faster	This increases the rate of evaporation.
