Mathematics Paper 1 and Paper 2 format based on SEAB 2026 PSLE Mathematics 0008. Questions are original practice questions, not official PSLE past-paper questions.

Percentage problem solving

P6 · Number and Algebra

1. 15% of the pupils in a school club are boys. There are 150 pupils in the club. How many boys are there? [1]

A. 22.5

B. 23.5

C. 21.5

D. 24.5

2. 15% of the pupils in a school club are boys. There are 120 pupils in the club. How many boys are there? [2]

3. 30% of the pupils in a school club are boys. There are 320 pupils in the club. How many boys are there? [4]

4. 20% of the pupils in a school club are boys. There are 190 pupils in the club. How many boys are there? [1]

A. 38

B. 39

C. 37

D. 42

Q	Section	Answer	Guidance
1	Percentage problem solving	A	22.5. $15/100 \times 150 = 22.5$
2	Percentage problem solving	18	$15/100 \times 120 = 18$
3	Percentage problem solving	96	$30/100 \times 320 = 96$
4	Percentage problem solving	A	38. $20/100 \times 190 = 38$
5	Percentage problem solving	96	$30/100 \times 320 = 96$
6	Percentage problem solving	67.5	$25/100 \times 270 = 67.5$
7	Percentage problem solving	A	32. $10/100 \times 320 = 32$
8	Percentage problem solving	67.5	$25/100 \times 270 = 67.5$
