P4 · Systems

1. Which organ absorbs most digested food into the blood? [2]

A. Small intestine

B. Gravity

C. Evaporation

D. A complete circuit

2. Which organ absorbs most digested food into the blood? Explain your answer clearly. [2]

3. Which organ absorbs most digested food into the blood? Explain your answer clearly. [4]

4. Which organ absorbs most digested food into the blood? [2]

A. Small intestine

B. Gravity

C. Evaporation

D. A complete circuit

5. Which organ absorbs most digested food into the blood? Explain your answer clearly. [2]

6. Which organ absorbs most digested food into the blood? Explain your answer clearly. [4]

7. Which organ absorbs most digested food into the blood? [2]

- A. Small intestine
B. Gravity
C. Evaporation
D. A complete circuit

8. Which organ absorbs most digested food into the blood? Explain your answer clearly. [2]

Answer Key

Q	Section	Answer	Guidance
1	Digestive system	A	Digested food passes through the wall of the small intestine into the blood.
2	Digestive system	Small intestine	Digested food passes through the wall of the small intestine into the blood.
3	Digestive system	Small intestine	Digested food passes through the wall of the small intestine into the blood.
4	Digestive system	A	Digested food passes through the wall of the small intestine into the blood.
5	Digestive system	Small intestine	Digested food passes through the wall of the small intestine into the blood.
6	Digestive system	Small intestine	Digested food passes through the wall of the small intestine into the blood.
7	Digestive system	A	Digested food passes through the wall of the small intestine into the blood.
8	Digestive system	Small intestine	Digested food passes through the wall of the small intestine into the blood.
