

Science Topical Worksheet

1 selected topic(s)

Total marks: 20

Science Booklet A and Booklet B format based on SEAB 2026 PSLE Science 0009. Questions are original practice questions, not official PSLE past-paper questions.

Name

Class

Date

Light

P4 · Energy

1. A shadow becomes larger when an object is moved closer to a torch. Explain why. [2]

- A. The object blocks more light from the torch B. Gravity
C. Evaporation D. A complete circuit

2. A shadow becomes larger when an object is moved closer to a torch. Explain why. [2]
Explain your answer clearly.

3. A shadow becomes larger when an object is moved closer to a torch. Explain why. [4]
Explain your answer clearly.

4. A shadow becomes larger when an object is moved closer to a torch. Explain why. [2]

- A. The object blocks more light from the torch B. Gravity
C. Evaporation D. A complete circuit

5. A shadow becomes larger when an object is moved closer to a torch. Explain why. [2]
Explain your answer clearly.

6. A shadow becomes larger when an object is moved closer to a torch. Explain why. [4]
Explain your answer clearly.

7. A shadow becomes larger when an object is moved closer to a torch. Explain why. [2]

- A. The object blocks more light from the torch B. Gravity
C. Evaporation D. A complete circuit

8. A shadow becomes larger when an object is moved closer to a torch. Explain why. [2]
Explain your answer clearly.

Answer Key

Q	Section	Answer	Guidance
1	Light	A	Light travels in straight lines, so a nearer object blocks a larger region.
2	Light	The object blocks more light from the torch	Light travels in straight lines, so a nearer object blocks a larger region.
3	Light	The object blocks more light from the torch	Light travels in straight lines, so a nearer object blocks a larger region.
4	Light	A	Light travels in straight lines, so a nearer object blocks a larger region.
5	Light	The object blocks more light from the torch	Light travels in straight lines, so a nearer object blocks a larger region.
6	Light	The object blocks more light from the torch	Light travels in straight lines, so a nearer object blocks a larger region.
7	Light	A	Light travels in straight lines, so a nearer object blocks a larger region.

Q	Section	Answer	Guidance
8	Light	The object blocks more light from the torch	Light travels in straight lines, so a nearer object blocks a larger region.
