Reproduction in plants and animals

P5 · Cycles

1. What is the function of pollen in flowering plants?

[2]

A. It contains the male reproductive cell

B. Gravity

C. Evaporation

D. A complete circuit

2. What is the function of pollen in flowering plants? Explain your answer clearly.

[2]

3. What is the function of pollen in flowering plants? Explain your answer clearly.

[4]

4. What is the function of pollen in flowering plants?

[2]

A. It contains the male reproductive cell

B. Gravity

C. Evaporation

D. A complete circuit

5. What is the function of pollen in flowering plants? Explain your answer clearly.

[2]

6. What is the function of pollen in flowering plants? Explain your answer clearly. [4]

7. What is the function of pollen in flowering plants? [2]

- A. It contains the male reproductive cell B. Gravity
C. Evaporation D. A complete circuit

8. What is the function of pollen in flowering plants? Explain your answer clearly. [2]

Answer Key

Q	Section	Answer	Guidance
1	Reproduction in plants and animals	A	Pollen must be transferred to the stigma before fertilisation can occur.
2	Reproduction in plants and animals	It contains the male reproductive cell	Pollen must be transferred to the stigma before fertilisation can occur.
3	Reproduction in plants and animals	It contains the male reproductive cell	Pollen must be transferred to the stigma before fertilisation can occur.
4	Reproduction in plants and animals	A	Pollen must be transferred to the stigma before fertilisation can occur.
5	Reproduction in plants and animals	It contains the male reproductive cell	Pollen must be transferred to the stigma before fertilisation can occur.
6	Reproduction in plants and animals	It contains the male reproductive cell	Pollen must be transferred to the stigma before fertilisation can occur.
7	Reproduction in plants and animals	A	Pollen must be transferred to the stigma before fertilisation can occur.
8	Reproduction in plants and animals	It contains the male reproductive cell	Pollen must be transferred to the stigma before fertilisation can occur.
