

Science Topical Worksheet

1 selected topic(s)

Total marks: 20

Science Booklet A and Booklet B format based on SEAB 2026 PSLE Science 0009. Questions are original practice questions, not official PSLE past-paper questions.

Forces

P6 · Interactions

1. A box is harder to push on a rough floor than a smooth floor. Explain why. [2]

A. There is more friction

B. Gravity

C. Evaporation

D. A complete circuit

2. A box is harder to push on a rough floor than a smooth floor. Explain why. Explain your answer clearly. [2]

3. A box is harder to push on a rough floor than a smooth floor. Explain why. Explain your answer clearly. [4]

4. A box is harder to push on a rough floor than a smooth floor. Explain why. [2]

A. There is more friction

B. Gravity

C. Evaporation

D. A complete circuit

5. A box is harder to push on a rough floor than a smooth floor. Explain why. Explain your answer clearly. [2]

6. A box is harder to push on a rough floor than a smooth floor. Explain why. Explain your answer clearly. [4]

7. A box is harder to push on a rough floor than a smooth floor. Explain why. [2]

A. There is more friction

B. Gravity

C. Evaporation

D. A complete circuit

8. A box is harder to push on a rough floor than a smooth floor. Explain why. Explain your answer clearly. [2]

Answer Key

Q	Section	Answer	Guidance
1	Forces	A	Rough surfaces produce greater friction opposing motion.
2	Forces	There is more friction	Rough surfaces produce greater friction opposing motion.
3	Forces	There is more friction	Rough surfaces produce greater friction opposing motion.
4	Forces	A	Rough surfaces produce greater friction opposing motion.
5	Forces	There is more friction	Rough surfaces produce greater friction opposing motion.
6	Forces	There is more friction	Rough surfaces produce greater friction opposing motion.
7	Forces	A	Rough surfaces produce greater friction opposing motion.
8	Forces	There is more friction	Rough surfaces produce greater friction opposing motion.
